SkyWorld Development Bhd

Back-Loaded Growth Underpinned by RM1.1bn Unbilled Sales

SkyWorld reported a 9MFY26 PATAMI of RM24.2m, reaching 55% of our full-year estimate. Despite a YoY dip following the completion of EdgeWood and SkyVogue, a sharp QoQ recovery—with revenue and earnings surging 58% and 69% respectively—signifies a turnaround. This momentum is fueled by accelerated billings from Curvo and Vesta Residences, alongside a fresh RM1.5bn GDV pipeline from new launches like SkyAman 1 and the SkyAwani series. With unbilled sales peaking at a robust RM1.1bn (+84% QoQ), we anticipate a back-loaded 4QFY26. We maintain our earnings forecasts and BUY rating with an unchanged RNAV-based TP of RM0.58.

9MFY26 results were as expected, with PATAMI of RM24.2m made up 55% of our FY26E earnings. We deemed the result as within expectation, as we anticipate a stronger earnings delivery in 4QFY26. This anticipated surge is backed by a substantial jump in unbilled sales and higher GDV recognition. Notably, EBITDA and EBIT margins remained resilient—declining only slightly YoY despite increased operating expenses—thanks to a bolstered GP margin. This margin strength was supported by early-stage billings from Vesta Residences and SkyAman 1, which traditionally offer higher profitability. No dividend was declared this quarter. SkyWorld's formal dividend policy stands at 20% payout.

YoY. Revenue and PATAMI dwindled by 9.9% and 36.1%, respectively attributable to the completion of EdgeWood Residences and SkyVogue Residences in previous financial year, which collectively contributed RM164.5m in revenue in 9MFY26.

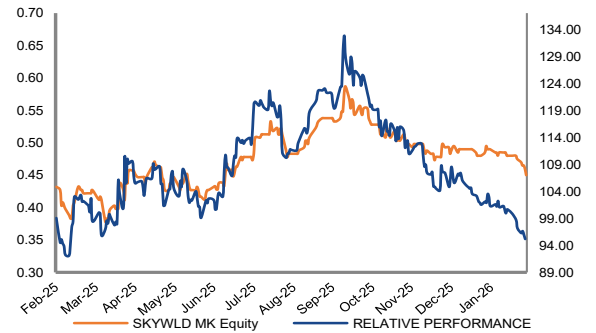

QoQ. Both topline and bottomline saw significant sequential growth, rising **58.1%** and **68.7% QoQ**, respectively. This was primarily due to higher progressive revenue recognised from Curvo Residences and Vesta Residences, alongside maiden contributions from newly launched project during the current quarter, namely SkyAwani PR1MA Residences, SkyAwani 6 Residences and SkyAwani Pearlmont Residences Phase 1. The Group's ETR was higher at 28.2% (2QFY26: 17.5%) weighed down by higher non-deductible expenses, including non-cash expense items.

Outlook. We anticipate a significantly stronger 4QFY26, catalyzed by the recent rollout of SkyAman 1 (Cheras), SkyAwani PR1MA (Brickfields), SkyAwani 6 (Setapak), and SkyAwani Pearlmont (Seberang Jaya). This cumulative RM1.5bn GDV represents 3.3x our FY26 revenue forecast, providing a massive runway for growth. Momentum is further validated by a +84% QoQ spike in unbilled sales, now standing at RM1.1bn. Since its July 2023 listing, SkyWorld has successfully realized RM2.8bn in GDV (61% of its 2026 commitment). We remain constructive on the group's leadership in the resilient affordable housing space, further bolstered by the adoption of PPVC technology to drive execution efficiency and protect margins.

Forecast. Maintain our earnings forecast at this juncture as we anticipate a higher revenue pick-up in 4QFY26, as well as pending analyst briefing.

Valuation. Pending on its post results briefing today, we reiterate our **RNAV-derived TP of RM0.58** with a 68% discount rate to our estimated RNAV of RM1.81/share. Maintain **BUY**.
